Vass-Tex 170

Performance Lightweight Waterproofs

Construction

Vass-Tex 170 Series is an extremely lightweight Water & Windproof outer combined with a soft Polyester reverse lining. This range is designed to wear over your clothing providing a high level of Water-Protection as well as extreme comfort. The Vass-Tex 170 Series material is also very flexible and boasts 15%-25% stretch capability ensuring the wearer has maximum movement during use.

Construction

Vass have designed this lightweight smock to ensure the highest Water-Protection is achieved without having to wear bulky & often restrictive rainwear. This Vass-Tex 175 Smock unique design was originally developed for fishing (commercial and Sport) where freedom of movement and protection from all elements are imperative. The Vass-Tex 175 Smock is unusually lightweight yet strong and remarkably stretchy (up to 25%). This ensures comfort without restriction of movement.

Vass purposely haven't used a winter lining in this smock so it can be used through the winter or summer leaving you the choice of layering underneath.

Vass-Tex 350

Performance Midweight Waterproofs

Mid weight 100% waterproof high quality Vass-Tex 350 PVC/Polyester material is hard wearing yet very soft & flexible. It's Bi-Stretch properties offers the wearer full comfort and is less restrictive during use. Boasting a Hydrostatic Head (a laboratory test for waterproofness) of between 25,000mm – 60,000mm which is probably the highest achieved in its weight category. Although not Breathable the Vass-Tex 350 material has a Micro Polyester reverse which helps absorb body moisture for improved comfort.

Waders

Vass-Tex 700 S5 Reinforced Safety Wader

Introducing the Vass-Tex 700 S5 & Reinforced Safety Waders.. This wader uses the tough high quality Vass-Tex 700 smooth PVC outer with a soft polyester reverse (slight stretch for comfort but also acts as a shock absorber on the seams). The body is fused with the S5 (Steel Mid Sole and Toe) reinforced Chunky Soled boot offering comfort, reliability and ultra hard wearing properties. Benefitting from Vass's usual high standard of manufacture and materials the Vass-Tex 700 Safety range also includes features such as Quad-Welded Seams, Reinforced Knees, Elasticated & Box stitched brace loops. Easy repair material (see our repair guide) and internal draw-cord in the chest wader for safety and comfort.

Note: It is the responsibility of the wearer to understand that the studs affect the grip of the sole i.e studs improve the grip on slippery mossy surfaces however can reduce grip on plain concrete surfaces!

Vass-Tex 700 VA700-77 (Non Studded)/ VA700-78 (Studded Sole) Safety Chest Wader

Vass-Tex 350 Premium

The Heavy Duty One! Many people experience heavy rains and winds when working outdoors and find that their current waterproofs aren't quite as waterproof as they expected. This is one of the reasons Vass developed the Vass-Tex 350 range to ensure our wearers are protected from the rain, wind and extreme water sprays. It's Heavy Duty yet unusually Flexible & Tough however remarkably stretchy (up to 15%) to ensure comfort without restriction when working.

Could this be the most Waterproof and Tough smock, bib and trousers in its class?

Vass-Tex 170 Performance Lightweight Waterproofs

Vass-Tex 170 Series is an extremely lightweight Water & Windproof outer combined with a soft Polyester reverse lining. This range is designed to wear over your clothing providing a high level of Water-Protection as well as extreme comfort. The Vass-Tex 170 Series material is also very flexible and boasts 15%-25% stretch capability ensuring the wearer has maximum movement during use.

Sizes available from small to 3XL

YKK front zip

Vass-Tex 175

Vass have designed this lightweight smock to ensure the highest Water-Protection is achieved without having to wear bulky & often restrictive rainwear. This Vass-Tex 175 range uses a unique design which was originally developed for fishing (commercial and Sport) where freedom of movement and protection from all elements are imperative. The Vass-Tex 175 range is unusually lightweight yet strong and remarkably stretchy (up to 25%). This ensures comfort without restriction of movement.

Vass purposely haven't used a winter lining in this smock so it can be used through the winter or summer leaving you the choice of layering underneath.
